EXAMINER'S COMMENT

Election/Restrictions

Inasmuch as independent claims 1, 26, 44, 65, 84, 100, 116 and 130 are now allowable, the restriction requirement resulting in the withdrawal of claims 13-25, 39-42, 60-64, 79-83, 95-99, 111-115, 125-129 and 135-139, has been reconsidered pursuant to MPEP § 821.04(a). **The restriction requirement is hereby withdrawn as to any claim that requires all the limitations of an allowable claim.** Therefore, claims 13-25, 39-42, 60-64, 79-83, 95-99, 111-115, 125-129 and 135-139 are no longer withdrawn from consideration and stand rejoined and allowed because the claims require all the limitations of an allowable claim.

In view of the above noted withdrawal of the restriction requirement, applicant is advised that if any claim presented in a continuation or divisional application is anticipated by, or includes all the limitations of, a claim that is allowable in the present application, such claim may be subject to provisional statutory and/or nonstatutory double patenting rejections over the claims of the instant application.

Once a restriction requirement is withdrawn, the provisions of 35 U.S.C. 121 are no longer applicable. See *In re Ziegler*, 443 F.2d 1211, 1215, 170 USPQ 129, 131-32 (CCPA 1971). See also MPEP § 804.01.

It is noted that the amendments made in the claims as filed on 25 August 2008, in combination with the totality of the secondary considerations presented by Applicant in the CFR 1.132 Declaration filed on 25 August 2008, resulted in the allowance of the present claims. It is noted that the evidence showing commercial success of the curved

high-speed burs is not dispositive of non-obviousness on its own merits, since the success could be due in part or in whole to marketing efforts rather than actual advantages of the invention. Regarding the failure of others, upon further consideration of the remarks on page 28 of the response filed 25 August 2008, as well as similar remarks in the Brunnett declaration at paragraphs 6-8, filed 01 October 2007, Examiner agrees that it would not have been obvious to have arrived at the presently claimed invention, in light of the previous failed attempts. Thus, taken alone, the evidence of commercial success may not be sufficiently persuasive; however, when considered together with the evidence of the failure of others, the weight of the evidence tends to favor a conclusion of non-obviousness.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to David Comstock whose telephone number is (571) 272-4710 (a detailed message should be left if Examiner is unavailable). If attempts to reach the Examiner by telephone or voicemail are unsuccessful, the examiner's supervisor, Eduardo Robert, can be reached at (571) 272-4719. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only.
